PRE-OFFER DEAL SCREEN

Pureinsure: cheap, but it depends on paid Google ads

Subject: Canada life-insurance lead-generation site, live on Flippa (listing 11015517), asking $3,500 · Screen date: 3 Nov 2026 · Basis: the public listing only. Price shown is the seller's asking price (multiples set to match it).

Call: proceed with conditions. Suggested bid **$2,800 to $3,300** (up to 2.0x annual profit, never above 95% of the price). Walk away above about **$3,500** (asking price). My rule: proceed if payback with revenue down 20% is 3.5 years or less.

1. The numbers at a glance

ITEM	VALUE	STATUS
Monthly profit	$987	COPIED listing
Profit margin	54%	COPIED
Monthly page views or orders	7,150	COPIED
Profit / revenue multiple	0.3x / 0.2x	COPIED
Monthly revenue, monthly costs	$1,824 / $837	DERIVED profit / margin
Annual profit	$11,844	DERIVED
Revenue per 1,000 views	$255	DERIVED
Asking price	about $3,500	COPIED asking price on the listing

2. What drives the call

- Asking price is about 3.5 months of the stated profit, which is low enough to suggest a catch.
- Revenue comes from Google Ads, so profit depends on ad spend and lead price staying stable; stop paying and the leads stop.
- The title says the site is a year old; the listing says 6 years. Ask which is true.
- Selling leads to insurers may need a licence in Canada; this screen cannot confirm that. Ask the seller who buys the leads and under what terms.

2b. Payback under falling revenue (costs held at $837 a month)

SCENARIO	PROFIT / MONTH	PAYBACK (YEARS)
Flat	$987	0.3
Revenue -20%	$622	0.5
Revenue -40%	$257	1.1
Revenue -60%	$-108	never

Simulation (20,000 runs, assumed ranges: revenue change -60% to +30%, a 15% chance the main income source leaves, $0 to $255 a month of added cost): price recovered within 36 months in about 91% of runs and within 24 months in about 93%. Ranges are assumptions, not data.

Red flags

RISK	CHANCE (MY JUDGMENT)	WHY
Ad costs rise or lead buyers pay less	about 40%	Margin of 54% rests on paid traffic
Licensing or compliance problem for lead selling	about 25%	Regulated product; not checked here
Account or CRM not transferable	about 25%	Google Ads accounts have their own rules

3. Questions for the seller

1. Monthly ad spend, leads, price per lead and buyer, for 12 months.
2. Contracts or terms with each lead buyer.
3. Is the Google Ads account (with history) included and transferable?
4. Is the site one year old or six? Show the domain registration date.
5. Which licence, if any, allows this lead sale, and does it transfer?
6. How many leads are generated without paid ads?
7. Refunds or rejected leads in the last 12 months.
8. What does the CRM cost per month and who owns it?
9. Why is it priced at about 0.3x profit?
10. Proof of profit: ad invoices and buyer payments.

4. What this screen is not

This is a short screen for discussion. It is not a quality-of-earnings report, no CPA signs it, and it is not legal, tax or investment advice. It uses only the public listing, did not contact the seller, and could not verify any figure against bank statements. The price and all chances are estimates.
